Injury through equipment defect	Operator Spectators Participants	Injuries caused by: Equipment integrity	Activity to have a valid ADIPS test annually. Regular inspections of the trampolines are made by Live 9 Events Staff to ensure all components are in a good condition.	TOLERABLE	IMPROBABLE	MEDIUM	All equipment has a visual inspection on set up and pack down, any defects are reported to the operator and equipment is taken out of action until required remedial works have been carried out.
Weather	Injury to Operator, Spectators or Participants	Injuries caused by: Slippery surface	Equipment should not be used in heavy rain or extreme weather conditions.	UNDESIRABLE	IMPROBABLE	MEDIUM	All participants to vacate the equipment when the play area of the activity becomes wet and slippery. The activity must be not be used until it is dry.

The above information is based on manufacturers' criteria and experience from extensive use of the equipment.

Any other action required:

This risk assessment is specific to the equipment and covers the set-up, use and pack down. The risks detailed above generally do not change between sites however as our team arrive on site they will conduct a dynamic risk assessment and avoid any risks they may find, if the risks cannot be avoided then the risk will be assessed and a decision on the location of set up will be made.

This item can only be operated by Live 9 Events staff and all staff will follow the training they have been given. If required can refer to the "Staff Information Pack & Safety Guide".
